EXPERIENCE

TOOLJET

Software Developer Intern

October 2025 - Present

Remote

- Contributed to **ToolJet**, a **YC-backed open-source low-code platform** with **40K+ GitHub stars**, delivering production-grade features used by global teams.
- Implemented **OpenID Connect (OIDC)** using **Node.js (NestJS)** for secure **SSO** with enterprise identity providers like **Azure AD, Okta, and Google Workspace**, enabling authentication for **5K+ enterprise users**.
- Designed and integrated **role-based access control (RBAC)** in the **PostgreSQL-backed API layer**, securing access for **500+ workspaces** and improving permission accuracy by **20%**.
- Implemented **domain-based access control** for authentication, enabling workspace- and instance-level restrictions to allow only approved domains, strengthening enterprise security.
- Built AI plugin integrations for **OpenAI, Anthropic Claude, and Google Gemini**, enabling dynamic prompt execution and unified API handling across multiple LLM providers.
- Enhanced database plugins (**PostgreSQL, MySQL, MongoDB, MS SQL Server**) by implementing **SSL/TLS, SSH tunneling, and auto-fill configuration**, improving security and ease of setup across environments.

FLUENCER DIGITAL

Full Stack Developer Intern

January 2025 - June 2025

Remote

- **Developed and scaled production-grade 8Senses**, a multi-module platform (HMS, e-commerce, cloud kitchen) used by **500+ users**, built with **Next.js, Node.js, and MongoDB**.
- Integrated **secure payments** and **inventory workflows** to automate **hospital and kitchen operations**, improving API response times by **30%**.
- Implemented **plan-based premium features** (dashboard limits) for **150+ users**, boosting adoption by **40%**.

PROJECTS

Prompt Stack

A dynamic web platform to **create, remix, and share AI prompts** with rich social and media features.

- Engineered **GraphQL** APIs for prompts, user profiles, and feedback — achieved **<200ms** response time.
- Integrated **Redis** for advanced caching, session storage, and rate limiting in a Node.js GraphQL backend.
- Managed **media uploads** to **Cloudinary**, enabling user image attachments with **<5s** average upload time.
- Implemented **asynchronous email delivery** using **RabbitMQ (AMQP)**, reducing server load by **40%** and improving average email response time to **2s**.
- Deployed project on **AWS EC2** using **Docker** with **Nginx** as a reverse proxy, automated via **CI/CD pipelines** with GitHub Actions, reducing cold start time by **50%** and achieving **99% uptime**.
- Technologies Used: Next.js, Node.js, PostgreSQL, Prisma, GraphQL, Google OAuth, Redis, RabbitMQ, Docker.

Clean Hood

A platform that **solves real-life Waste Management** through community participation and reporting of waste problems.

- Streamlined clean-up drives via **CRUD** operations and integrated **RazorPay**, for boosting the donations.
- Technologies Used: Node.js, Express.js, MongoDB, React.js, RazorPay, NodeMailer, Mailgen, JavaScript.

SKILLS

- **Technologies:** HTML, CSS, JavaScript, TypeScript, Node.js, React.js, Next.js, Express.js, Redux, C/C++, Python.
- **Cloud, Databases & Tools:** AWS (EC2, S3, CloudFront), MongoDB, MySQL, SQL, Docker, CI/CD, Prometheus, Grafana, VS Code, Postman, Hoppscotch, Git, GitHub, Jest, Vitest.
- **Courses Taken:** Machine Learning, Operating Systems, Data Structures, Algorithms, Object-Oriented Programming.
- **Other Skills:** Problem Solving, Unit Testing, Integration Testing, Agile, Linux, Containerization, Version Control, Scalable Architecture, Best Practices, Communication, Collaboration, Database Design, Optimization, Industry Trends.

ACHIEVEMENTS

- **National Semifinalist**, Tata Imagination Challenge 2024 — Ranked among **Top 2%** (7,000 of 350,000+ participants).
 - **Competitive Programmer**, Solved **1000+ DSA problems**, **Top 4% on LeetCode**, Max Rating: **1882**.
 - **Knight on LeetCode**, Achieved **Top-500 rank** in a global contest (**35,000+ participants**).
-
